**Explanation:** The list includes all third-party funding a member of faculty received either for research or teaching purposes.

The statistics refer to the 2003 budget year. Funds for major projects of Collaborative Research Centres are allocated to the Centre's spokesperson; funds for other projects are attributed to the project leader. All funds for Research Training Groups are allocated to the group's spokesperson. Funds for endowed professorships are not included in the listing. Endowed visiting professorships are included under the name of the person who was able to attract the funding for it. Equipment on loan from the DFG is included in the list from the time it was transferred into Humboldt-Universität ownership.
