

Please fill out the information form as completely as possible and send it to us via e-mail at least two days before the agreed consultation. That will give us the opportunity to get prepared to the maximum and get an idea of your research experience, ideas and goals. The form also offers you the possibility to refer to various documents (e.g. CV, project sketch). Ideally, please send the filled form together with your request for an appointment. The submission of the information form in time is a requirement for a personal consultation.
