Around 250 people from Ukraine study and work at the European University Viadrina, and the same number study at Humboldt-Universität. Our universities see themselves as places of debate, as places of exchange between academia and society. For many years, we have maintained close partnerships with actors in Ukrainian academia and civil society. Therefore, subject to the current situation, we are pleased that President Selenskyj will take the time for a digital exchange with you, the students and members of the Berlin universities and the European University Viadrina.

We look forward to your coming and an interesting exchange,

Yours
