

Mission statement on teaching: Register for the kick-off event and contribute editorially

Members of all status groups are cordially invited to participate in the creation of the HU's mission statement on teaching and can register now for 15 February: On this day, the kick-off event will take place, which will provide information on the goals, reasons and the process. The mission statement on teaching is a joint task of the entire university. It will have a significant influence on the design of teaching at the HU in the future. Therefore, it is to be developed jointly in a discursive, participatory and transparent process.

In the video "Friday after one...", Niels Pinkwart, Vice President for Academic Affairs, and Kathrin Friederici, Project Coordinator for the mission statement on teaching in the bologna lab, provide information about the project.

Register for the Editorial Board

The Editorial Board plays an important role in the development process of the mission statement on teaching. As an editorial team, it processes and consolidates the submitted content and thus successively formulates the mission statement on teaching. If you are interested in participating in the Editorial Board, please register by 10 February.
