

Dear students,

On November 23, 2021, Berlin passed a new admendment ordinance for the Third Ordinance on Measures Required to Protect the Population from Infections with the SARS-CoV-2 Coronavirus, which will come into effect on November 27, 2021. At the beginning of next week, we will inform you in detail about the implications of the amendment ordinance for studying and teaching.

At this point, however, I would already like to inform you that the 3G-rule will generally continue to apply to in-person teaching events after November 27, 2021. Exceptions exist with regard to university sports and ensemble music. We will send you more detailed information on this early next week.

Yours sincerely

Prof. Dr. Niels Pinkwart

Vice President for Academic Affairs

Questions and answers on current measures
