

# VENTURE SERVICE OF HUMBOLDT-UNIVERSITÄT ZU BERLIN

The Venture Service of Humboldt-Universität zu Berlin (HU) is the first point of contact for students, graduates and researchers at the Humboldt-Universität zu Berlin who want to use their academic knowledge to start a company.

We support you throughout your journey from developing a business idea and/or model to founding the start-up. We offer consultations and further training, provide office facilities and answer questions concerning financing and funding opportunities. In addition, the Venture Service provides access to a broad network of investors and sponsors. With regular networking events, fellow founders are encouraged to interact and swap notes with one another and meet with potentially interested parties and investors.

## Humboldt-Innovation GmbH

A company of  
Humboldt-Universität zu Berlin

Ziegelstraße 30  
10117 Berlin  
Germany
