Humboldt-Innovation GmbH (HI) and the Research Service Centre (SZF) of Humboldt-Universität zu Berlin (HU) offer comprehensive consulting and assistance on all issues regarding knowledge and technology transfer for researchers.

Members of the HU benefit from:

- attractive funding opportunities for research projects
- more flexibility in utilization of the acquired funds
- access to a large business network consisting of innovative companies, startups and the public sector
- further career opportunities for researchers and students of the HU

The Innovation Management Team is your first point of contact if you want to examine your findings for application potential.

We offer:

- personal consulting and innovation scouting
- workshops, seminars and network events with focus on application and transfer
- commercialization of your application-oriented research expertise
- information and newsletters to transfer-relevant issues such as tenders and awards

The Innovation Management Team identifies and analyzes the exploitation potential of your ideas and findings. The team offers support in selecting suitable transfer-relevant funding programs, creating exploitation plans and choosing a suitable transfer channel (spin-off, contract research, licensing).

Our comprehensive seminar program includes a startup course for researchers. Within this seminar researchers will work on transfer perspectives of their scientific competence. The aim of the seminar is to provide key skills for setting up a business and to deepen these competences by practical exercises.

UNSERE VERANSTALTUNGSFORMATE

The IP-Day is an annual event that gives an overview of the subject intellectual property. Participants receive information about patents and copyright as well as practical tips for patenting strategies and further ways to protect inventions.

Humboldts Wagniswerkstätten are a project that gives an understanding of the relevance of innovation and transfer between elite research, economy and society. Participants develop this understanding within methodical and practical teaching formats.

Through application-oriented presentation of research the competences and expertise of the researchers are specifically communicated for themed and sector related research partners at the university.

Every year, the series of events „Wissenschaft trifft Wirtschaft“ takes up a current research topic and provides a platform for interdisciplinary exchange between members of the HU, representatives of companies and the public sector.
