

ECTS GRADING TABLE 2022

Distribution of module grades in study programmes leading to the second academic degree (Master)

In order to achieve better comparability between various grading systems, the Humboldt-Universität zu Berlin follows the European Union regulations providing relative grades in the form of grade distribution tables^a. For that reason, the HU Berlin uses a reference group selection based on the International Standard Classification of Education (ISCED)^b. The data for ECTS grading tables are generated annually. The reference period includes three previous calendar years at the time of data collection respectively.

The ECTS grading table below shows the statistical distribution of module grades, the total number of passed module examinations in the period considered, and the average of the recorded module grades. Description of module grades is made according to para. 114 of the General Study and Examination Regulations of the Humboldt-Universität zu Berlin (ZSP-HU) of 30 April 2013 in the currently valid version.

ISCED Code	ISCED field	Module grades				Total of module examinations	Average module grade
		1,0 - 1,5 very good	1,6 - 2,5 good	2,6 - 3,5 satisfactory	3,6 - 4,0 sufficient		
		Number of module examinations absolute (percentual) cumulative percentage
